

Student Performance Dashboard

Introduction

To create an interactive Power BI dashboard for analyzing students' academic performance.

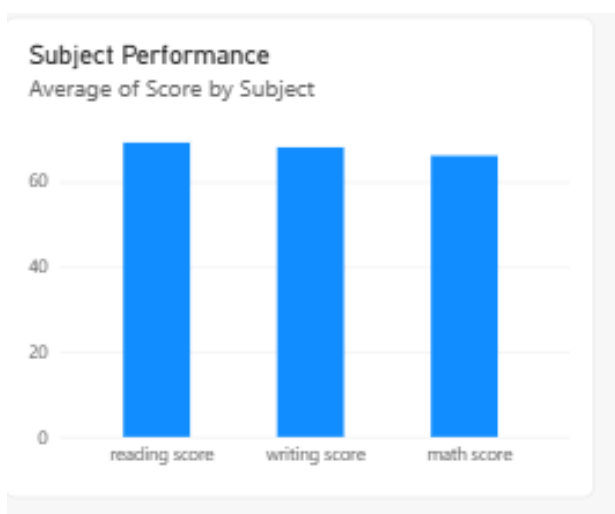

1.KPI Measures

Created KPI cards to display the overall and subject-wise average scores and overall pass percentage.

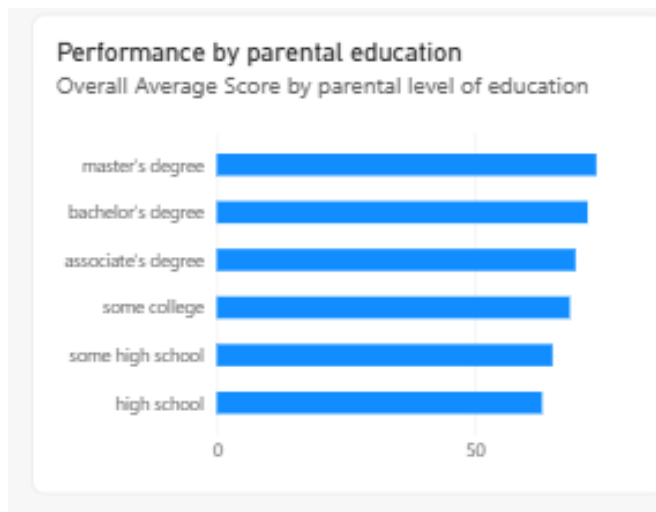

2.Subject Performance

Created a chart to compare the average performance of students in Math, Reading, and Writing.

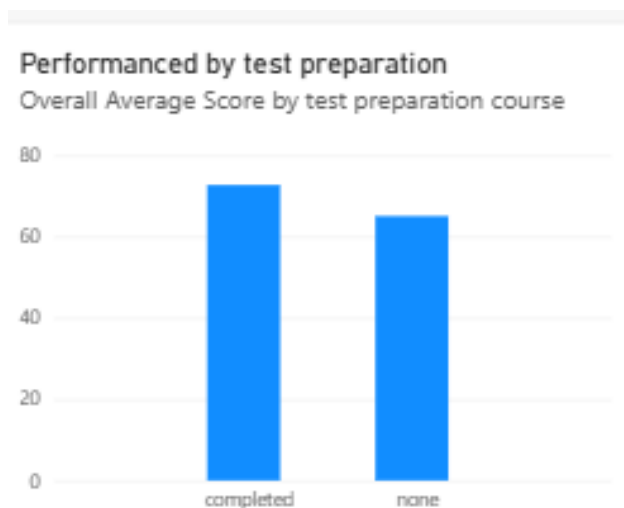

3. Parental Education Analysis

Created a visual to analyze student performance based on their parents' education level.

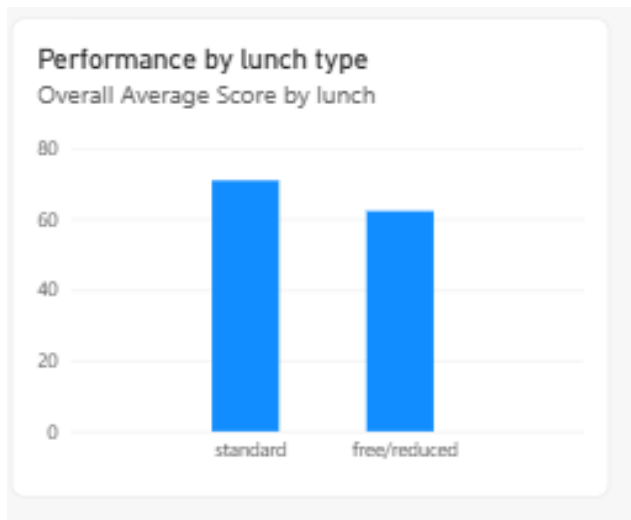

4. Test Preparation Analysis

Created a visual to compare the performance of students who completed the test preparation course with those who did not.

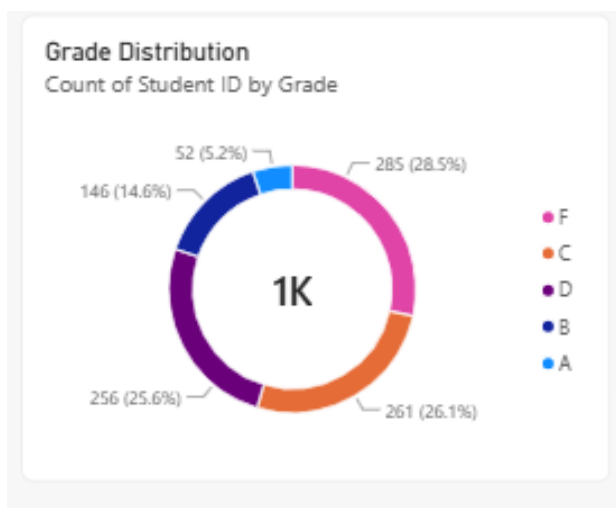

5. Lunch Type Analysis

Created a visual to compare student performance based on lunch type.

6. Grade Distribution

Created a donut chart to show the distribution of students across different grades.

7. Slicers

Added slicers to interactively filter the dashboard based on gender, race/ethnicity, parental education, lunch, test preparation, and subject.
